

Operation Street Smart

To help address our community's growing concern over the threat that drugs have on our children, the Clyde-Green Springs School District will be offering the adult drug education program call Operation Street Smart, on Tuesday, November 29, 2016 at 6:00 p.m., in the Clyde High School Auditorium.

This program is designed to educate parents, teachers, social workers, and community partners about current drug trends, terminology, and paraphernalia. Our goal is to arm parents and teachers with information necessary to recognize the influences of the drug culture on their children, familiarize them with the many different drugs our children face, and share with them the experience and knowledge of undercover narcotics officers so they are better prepared to help their children make the right choices.
